

## Champion Solutions Group

### ***Project Management – Time is money: How our services can benefit you***

Champion's Project Management Team offers a customized approach to the support of your project's completion. From start to finish – our team will be there to help you meet your goal.

#### **Equipment Management**

##### ***Champion's team will not only...***

- Help you to identify and manage the critical hardware and software components needed to get your project moving
- Provide a master equipment inventory to keep track of all inventory items – complete with serial numbers for easy cross referencing
- Manage the delivery of sizeable pieces of equipment, including the coordination of all dock and security requirements
- Track and record all IBM equipment deliveries

#### **Communications Management**

##### ***But also...***

- Schedule, coordinate, and document conference calls, discussions and meetings between all team members
- Follow up on action items assigned to various team members, until those items are completed
- Become a centralized source of all information

#### **IBM Compliance For ESS and Regatta**

IBM requires Solution Assurance Reviews:

*We work with IBM on all compliance issues, ensuring a seamless experience.*

IBM requires an Environmental Analysis of customer site:

*We work with the Installation Planning Representative to make certain that the analysis is conducted in a timely manner.*

#### **Schedule Management**

##### ***In addition, we can...***

- Coordinate the completion of all projects within your requested time line and budget
- Work closely with vendors, ensuring the timely delivery of components
- Work closely with delivery services and resource deployment, guaranteeing that you receive the right resources at the right time

#### **Scope Management**

##### ***As well as know how to...***

- Manage the attainment and completion of all paperwork, including any project change requests

#### **Quality Management**

##### ***Most importantly, we will...***

- Ensure that any and all concerns are addressed quickly and efficiently
- Allow you to maintain focus on your core business needs, as your project moves towards completion

#### **When things go wrong**

##### ***As they sometimes do...***

There are times when things do not go as smoothly as planned. Unanticipated problems can take time to resolve properly. Champion's Project Management Team gets to the core of the problem – and gets results.

***Call our Project Management Team today at 800-771-7000 x164 for more information on affordable project support services.***
