

AmCOMP, Inc. Deploys Microsoft SharePoint Server 2007 to Support Growing Portal Requirements

- ❑ Corporate Portal is accessed by users across 17 states
- ❑ Improved document search and approval process helps increase productivity

Technology Dilemma

AmCOMP, Inc. of North Palm Beach, FL, an insurance holding company, engaged Champion Solutions Group to assist with upgrading their existing Microsoft SharePoint environment, which also included upgrading their underlying database from Microsoft SQL 2000 to 2005. Implementing this solution, featuring Windows Server 2003 Enterprise Edition with SharePoint 2007 and SQL 2005, helps allow for continued growth as AmCOMP continues to expand and support their growing portal requirements by internal departments, as well as, remote offices.

PROFILE

Industry:
Insurance Holding Company

Location:
North Palm Beach, FL

Environment (prior to solution):
Microsoft SQL Server 2000
Microsoft Office SharePoint Server 2003

Solution

AmCOMP worked closely with Champion Solutions Group to develop a vision and outline for the scope of the project. When they made the decision to upgrade their existing technology environment, Champion Solutions Group recommended a technology refresh solution to support their corporate portal needs.

- Microsoft Office SharePoint Server 2007
- Microsoft SQL Server 2005

Solution:
Technology Refresh for corporate portal comprised of Microsoft SharePoint and SQL upgrade

Result

This technology refresh solution provides improvements in reliability and performance to service the needs of AmCOMP's growing insurance business.

- ✓ **Improved Document Search**
The updated solution provides better search capability of documentation (ie. keyword search within a document), results in quicker document look-ups.
- ✓ **Streamlined Approval Process**
With Workflow Manager, AmCOMP now has an automated approval process for their best practice documentation. Documents get routed and alert the team for approval.
- ✓ **Replication**
Allows AmCOMP easier replication to their Disaster Recovery Site.

“ We lacked the in-house expertise to support this initiative. Having worked with Champion Solutions Group on many other projects, we knew they would bring value to the project and could rely on them to get the job done. From a customer service and negotiation standpoint, Champion always takes the necessary measures to keep us satisfied. It was critical that we make these changes in our environment to keep pace with our growing business, and Champion allowed us to do just that. ”

Michele Seber – AmCOMP, Inc.
